

Amendment to the Specification

Please replace paragraph [0029] with the following replacement paragraph:

[0029] The electronic part installing and/or removing device 1 is provided with a housing 2 which is thin and of the shape convenient for grasping. Sleeves 6 (6a and 6b) for respectively holding legs 3 (3a and 3b) are provided in the housing 1. Of the sleeves 6, the upper side sleeve 6a is movable relative to the housing 2 while the lower side sleeve 6b is fixed on the housing 2 to be stationary during operation. The movable sleeve 6a is pivoted on the housing 2 by a supporting shaft or stud 7 to pivot around the supporting shaft 7. The movable sleeve 6a is formed with recesses A and B which serve as manipulation portions to be manipulated or operated by the operator and which facilitate the operation.
